

MERSEYSIDE'S FASTEST GROWING
LASER CUTTING COMPANY

5750
Components Ltd

It's been an extremely exciting year at 5750 Components Ltd, and to support our ongoing growth we have moved to new larger premises and invested £3m in additional machinery/floorpace including a high speed cutting 4mx2m fibre laser. We have also recruited three new sales estimators to enable the company to offer quicker quotes and faster turnaround times to our customers.

ADDITIONAL CAPACITY

SHORTER LEADTIMES

NEW FACILITIES

1

Our new facility boasts more shop floor space and larger offices to make room for further growth. We now have 4 laser cutting machines and 4 press brakes operating around the clock

NEW FIBRE LASER

2

Our new 8Kw fibre laser cutting machine enables us to cut larger parts (4m x 2m) with much increased cutting speeds on parts of up to 40mm stainless steel, 25mm mild steel and aluminium

NEW PRESS BRAKES

3

We have also acquired two new press brakes, increasing our capacity to a total of 4 press brakes with the ability to fold parts of up to 4.2m in length

ADDITIONAL WELDING BAYS

4

Our new facility gives us more assembly space, and we now also have additional welding capacity as we continue to increase our welding workforce

NEW STATE-OF-THE-ART FACILITIES

WE HAVE MOVED!

We have just acquired a new 33,000 sq. ft. manufacturing site located just over 500 yards from our old facility at the Knowsley Business Park in Merseyside
